

## **General objectives and specific objectives for the year 2015**

### **1. Management, technical assistance and implementation of the National Peripheral and Central Hematopoietic Stem cells Transplant Program**

1.1. Creation and management of a computer database on the Romanian territory regarding the individuals who have given their consent to donate hematopoietic stem cells and which are confirmed and validated.

1.2. Coordinating the recruitment and registration in NRVHSCD of at least 10,000 hematopoietic stem cells donors aged between 18 and 60 years;

1.3. Coordinating the testing of at least 5,000 HSC donors in the accredited laboratories within the country.

1.4. Creation and management of a computer database on the Romanian territory for patients with indication for hematopoietic stem cells transplantation from an unrelated donor.

1.5. Search and identification of compatible hematopoietic stem cells donors in our own database and in international databases for all Romanian patients with indication for hematopoietic stem cells transplantation from an unrelated donor.

1.6. Coordination of hematopoietic stem cells sampling and transplantation activities from an unrelated donor.

1.7. Carrying out IEC events/activities for promoting HSC donation, at national level and coordinating the activities of promoting HSC donation at the level of the designated units that carry out activities coordinated by NRVHSCD.

1.8. Proposals regarding the Technical Norms for the implementation of the national public health programs for the year 2016

### **2. NRVHSCD to fulfill and maintain the minimum requirements required by European and international standards in the field (standards of the World Marrow Donor Association - WMDA)**

2.1. Maintaining certification for quality standards: ISO/IEC 9001:2008 - quality management system and for ISO/IEC 27001: 2005 - information security management system

2.2. Fulfilling the requirements and recognition as a member of international organizations in the field of activity: World Marrow Donor Association (WMDA), Europdonor - Bone Marrow Donors Worldwide (BMDW), European Group for Blood and Marrow Transplantation (EGBMT), European Federation for Immunogenetics (EFI).

2.3. Proposal of a GD regarding the approval of the fees and taxes paid by the National Register of Voluntary Hematopoietic Stem cells Donors in order to interconnect with international structures, for the year 2015

2.4. Proposals for an Order of the Minister of Health for the approval of the guide on establishing the medical eligibility criteria for hematopoietic stem cells donors

2.5. Implementing standards of organization and operation

2.6. Professional training of personnel involved in activities coordinated by NRVHSCD.

2.7. Program design and implementation of SCIM

**3. Implementing the interconnection of the National Register of Voluntary Hematopoietic Stem cells Donors with similar international organizations.**

3.1. Establishing and maintaining partnerships with similar international organizations

3.2. Implementing the functional interconnection (both for the donor and for patients with an indication for hematopoietic stem cells transplantation from an unrelated donor for whom no compatible donor has been identified in the Local Registry), with at least 10 registers in the European Marrow Donor Information System (EMDIS)

3.3. Registration in the Europdonor - Bone Marrow Donors Worldwide (BMDW) international database of at least 20,000 active and HLA tested HSC donors to meet the minimum entry requirements for the Small and Medium Registers Group.

**4. Search and identification of compatible hematopoietic stem cells donors in its own database, for foreign patients.**
